We are Never Alone

God, who is in love with us,
help us remember that we are never alone.
Even when we experience the worst result
of this virus infecting our planet, you remain with us.
As our Father, you instill in us
the strength we need to endure our loss;
as our Mother, you hold us
as we mourn our new emptiness.
God of life, the breath of your Spirit within us,
whispers that love never ends.
We reach for your hand as we stumble
through our darkness knowing that in your light
we will see each other again.
We are grateful for the life and love we have shared.
We beg for your comfort, O God,
who weeps with your children.
